

GEVITOP

The GEVITOP feeding stall: a complete feeding station!

With its 20-year pedigree, the GEVITOP has been developed and has proven its worth over time, and today we can offer you a complete and user-friendly feeding stall that perfectly caters to the pig farmer's needs.

+ ITS PLUS POINTS

- Raised trough allowing the sow to breathe easily, even when lying down
- User-friendly locking system, which can be handled without bending down
- 2 m-high portal for increased rigidity and solidity
- Liftable rear gate saving space to the rear of the sows
- Ergonomic gateway facilitating operator access for oestrus detection, scanning, vaccination, insemination

+ MATERIALS

- Horizontal lower bars with no risk of injury for sows
- Vertical upper bars for safely containing the sow
- Trough raised at the rear to reduce cleaning in aisles
- Reinforced, hygienic, durable and anti-corrosion stainless-steel feet
