

# PROTEK +

## The stall that combines simplicity and efficiency !

You need easy access to the interior of your stalls? Our experience with the LACTEK stall combined with the freedom and comfort afforded to the sow have led to the development of the PROTEK +.

### + ITS PLUS POINTS

- Ample space for sow and piglets
- Ergonomic design of the side panels
- Reduced crushing risk thanks to the cast-iron slats and the anti-crush bar
- Tubular frame suited to the free movement of the sow (angled top section, blocked at the partitions)
- Excellent visibility thanks to the low (50 cm high) dividers
- Robust rear passage gate, folding as an option

### + MATERIALS

- MIK® plastic floor supporting sows weighing up to 350 kg, high-quality, high-resistance
- Schonlau® cast-iron slats with rounded edges
- 50 cm-high PVC enclosure, high resistance to shocks and to wear and tear
- 1 m-high PANELTIM® polypropylene enclosure,  $\pm 10 \text{ kg/m}^2$ , 50 mm-thick, 100% hermetic, resistant to shocks and to ammonia
- Hygienic, durable and anti-corrosion stainless-steel side panel feet
