

PROTEK UP

The stall that combines simplicity and efficiency !

You need easy access to the interior of your stalls? Our experience with the LACTEK stall combined with the freedom and comfort afforded to the sow and the safety requirements in the first days after farrowing have led to the development of the PROTEK UP.

+ ITS PLUS POINTS

- Ample space for sow and piglets
- Crushing risk reduced thanks to the anti-crush bar
- Tubular frame suited to the free movement of the sow (angled top section, blocked at the partitions)
- Excellent visibility thanks to the low (50 cm high) dividers
- Robust rear passage gate, folding as an option
- Lift stability guaranteed by the horizontal thrust from 4 cylinders

+ MATERIALS

- MIK® plastic floor supporting sows weighing up to 350 kg, high-quality, high-resistance
- Cast-iron slats
- 50 cm-high PVC low enclosure, high resistance to shocks and to wear and tear
- 1 m-high PANELTIM® polypropylene high enclosure, $\pm 10 \text{ kg/m}^2$, 50 mm-thick, 100% hermetic, resistant to shocks and to ammonia
- Hygienic, durable and anti-corrosion stainless-steel side panel feet
