

WEANTEK +

The stall that reduces stress for piglets!

Our WEANTEK + is a stall for on-the-spot weaning, which prevents piglets from being subjected to high stress during weaning. It offers many advantages not only for the sow and the piglets but also for the farmer.

+ ITS PLUS POINTS

- Less stress for piglets
- Optimised use of stall space
- Quick and easy transition from farrowing stall to weaning stall
- 2 liftable side panels
- Save on working time and energy
- Mixed sow/piglet feeder
- Human passageway for getting around the stalls more easily
- Crushing risk reduced thanks to the anti-crush bar

+ MATERIALS

- MIK® plastic floor supporting sows weighing up to 350 kg, high-quality, high-resistance
- Schonlau® cast-iron slats with rounded edges, unit weight: 45 kg
- 1 m-high PANELTIM® polypropylene high enclosure 10 kg/m², 50 mm-thick, 100% hermetic, resistant to shocks and to ammonia
- Hygienic, durable and anti-corrosion stainless-steel side panel feet
